

# New Clinical Trial in HAE

## PREVENTING ATTACKS

A Research Study in patients with HAE will begin soon, testing whether an oral investigational medicine can reduce the frequency of HAE attacks over a 12 week period.

If you are interested in participating, please contact:

**London:** John Dempster  
John.Dempster@bartshealth.nhs.uk

**Bristol:** Louise Jennings  
Louise.Jennings@nbt.nhs.uk

**Manchester:** Alex Farragher  
alex.farragher@cmft.nhs.uk

**Oxford:** Karen Abrams  
Karen.Abrams@ouh.nhs.uk

**Birmingham:** Hayley Clifford  
Hayley.clifford@heartofengland.nhs.uk

**Cardiff:** Colin Price  
Colin.R.Price@wales.nhs.uk

**Southampton:** Dr W Rae  
Will.rae@uhs.nhs.uk

This study may be for you if you:

- Have been diagnosed with HAE Type 1 or 2 and have had HAE attacks currently or in the past
- Are  $\geq 18$  years of age
- Are willing to fill out a daily diary about taking your study medicine and about any HAE attacks that occur
- Can commit to be in the study for up to 6 months and come to the research clinic 6 times over that period
